

we are **NEW**

Since 1982

History

Avşar Emaye is the leading name of enameled cookware production sector in Turkey and one of the largest enameled cookware manufacturer in the Europe since 1982 and is situated on 60.000 m2 of land located at the "Bolvadin" district in Afyonkarahisar City.

Avşar Emaye has always pursued the latest and leading trends in cookware manufacturing industry since its establishment in 1982. A brief look at our history shows that we have always strived to be a pioneer in cookware industry not only in our region but also in the world. Avşar Emaye is specialized at the R&D, manufacturing and selling of low, mid and high grade enamel coated Steel and Aluminum cookwares, including all kinds of forged, pressed, ceramic, non-stick and enamel cookwares.

The ranges of products are not only casseroles, saucepans, bowls, tea-pots, deep fryers but also oven trays and coffepots which are formed in special ways. All these products are produced in different forms, colours and thickness for local market in Turkey and for 35 different countries by considering their cultures and economical conditions. We are already well known manufacturer and brand in the world. We always follow and use all the latest technology in our production line to offer the best, the most ergonomic and healthy products to our buyers and end users.

Our goal is to expand our market shares all around the world. We have very flexible production line and we produce the goods according to customer instructions.

You give us technical details about products you need and we can shape your ideas.

Avşar Emaye is a dynamic and active company who always prefers novelty and always has good relationship with its customers and technical groups all over the world for both marketing and technological relations by willing to contact you in producing and selling products and to create big projects with a good partnership.

Vintage Series

Vitaly

Elegant Enamel Cookware Collection. The range with outer surfaces featuring full of half patterns or simple colors, are easy to clean and coated with porcelain enamel inside and outside. Completed with gold coated S/Steel handles and glass or metal lids depending on the product type, the range provides a real ease of use.

It is a classic kitchen essential for everyday use. It is not only for straining and draining of pasta and fruit but also a nice streamer.
